MOHD SAMI

Data Analyst

+91 8104302638 | siddiquisami2580@gmail.com | Mumbai, India
Portfolio | LinkedIn | GitHub

SUMMARY

Data Analytics professional with hands-on experience in Power BI, Excel, SQL, and Python. Skilled in data cleaning, exploratory data analysis (EDA), KPI development, and building interactive dashboards that translate raw data into clear business insights. Final-year AI & ML engineering student with additional exposure to machine learning and GenAI tools. Seeking a Data Analyst role to support reporting, business intelligence, and strategic decision-making.

EXPERIENCE

Power BI Developer Intern — GET AnalyticX *Jul 2025 – Aug 2025*

Remote | Mumbai, India

- Designed and delivered interactive Power BI dashboards for business and industry datasets, enabling stakeholders to track KPIs and spot trends at a glance.
- Performed data cleaning and transformation using Power Query; applied DAX measures to build calculated KPIs for executive reporting.
- Developed a Data Science Salary Dashboard surfacing compensation trends, role-level salary distributions, and geographic salary insights using Excel, reducing manual research time for HR teams.
- Collaborated with business users to translate reporting requirements into scalable dashboard layouts and drill-through pages.

PROJECTS

AI-Powered Steam Market Intelligence Platform (Ongoing)

Tools: Python, BeautifulSoup, MySQL, Power BI, ETL Pipeline | GitHub

- Developing an end-to-end data analytics platform to scrape, transform, and analyze Steam marketplace data.
- Built a web scraper using Python and BeautifulSoup to extract game details such as price, ratings, release date, genres, and platform support.
- Designed a normalized MySQL database schema for efficient storage of game metadata and market metrics.
- Building interactive Power BI dashboards to visualize pricing trends, genre popularity, review distributions, and publisher insights.

Data Science Salary Dashboard – India

Tools: Excel, Power Query, Kaggle Dataset | GitHub

- Analyzed salary data across 642+ companies in India to surface compensation trends, in-demand roles, and location-based pay gaps.
- Built KPIs (Average Salary, Median Salary, Total Jobs) with dynamic slicers and pivot charts, reducing manual HR benchmarking effort.
- Cleaned and transformed raw dataset using Power Query, handling missing values, standardizing job titles, and removing duplicates.

TECHNICAL SKILLS

Analytics & BI: Power BI, Excel (Advanced), DAX, Power Query, Pivot Tables, KPI Development, EDA
Programming: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL)
Data Visualization: Power BI Dashboards, Excel Charts, Matplotlib, Seaborn
Machine Learning: Scikit-learn, TensorFlow, NLP (supporting knowledge)
Databases: MySQL, Structured Query Language (SQL)
Cloud & Tools: AWS, Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Kaggle

EDUCATION

B.E. in Computer Science & Engineering (AI & ML) *2023 – 2027 (Final Year)*

University of Mumbai | India

CERTIFICATIONS

- Power BI Certification — Integrity Software Pvt. Ltd.
- AWS Cloud Foundation Trainee Graduate — Amazon Web Services

LANGUAGES

English (Professional Proficiency) • Hindi (Native)
